

Why Web is best?

- Web-Based Software is software you use over the internet with a web browser
- You don't have to install any CDs, download any software, or worry about upgrades
- Data security, uptime, backups and upgrades are all managed by us
- Your data is centralised and accessible over the web from any computer, at any time
- Your data is backed up every day
- Works on PC, Mac, Linux
- Always up-to-date
